

With over 10 years of operational management and strategic leadership experience, Dibbs Consulting can help your small business reach its full potential.

Small business focus

Our service is designed especially for small businesses that are looking to grow and develop but don't know the next move. We are not expensive management consultants with a heavy corporate feel, but hands-on partners in operational and strategic success.

We don't work with large, corporate organisations, but pride ourselves on a deep understanding of the unique and personal challenges faced by small business owner-operators.

It doesn't matter what field your business is in because we will spend quality time understanding how it works before we start. We work alongside you and your team with probing questions and detailed observations of your business as the basis of our analysis and advice.

Our major strengths

Operational excellence

We specialise in reviewing and implementing the operational processes of your business. This includes:

- Workflow, process and procedure review
- Cost effective and efficient techniques
- Human resource motivation and management
- Information technology systems and solutions
- Financial management understanding

Strategic leadership

An effective business needs direction and goals. Our methods of strategic leadership can help you with:

- Devising mission, vision, value and target statements
- Constructing strategic plans and implementation plans to ensure outcomes are delivered
- Target setting and Key Performance Indication management
- Reporting and monitoring solutions
- Budgeting and forecasting

We can also assist with:

- Event management
- Bespoke software and hardware solutions
- Online presence

So if you are a small business owner looking for a cost effective way to get some professional advice on the next step, get in touch today.

small business, big potential
